EDUCATION

Southern New Hampshire University - Manchester, NH

Bachelor of Science, Biology - Expected April 2025

Minor in Bioinformatics

GPA: 3.6

RELEVANT COURSEWORK

Organic Chemistry w/ Lab | Microbiology w/ Lab | General Chemistry I & II w/ Lab | General Biology I & II w/ Lab |

LAB SKILLS

Microscopy | Acid-Base Titration | Vacuum Filtration | IR & NMR Spectroscopy | Mass Spectrometry | Acid Digestion |
Pipetting | DNA Extraction | Experiment Design

RESEARCH

University of Iowa

Interdisciplinary Evolutionary Studies REU

Parental Investment Under Environmental Nutrient Limitations

May 2024 – July 2024

- Consulted with mentor, lab primary investigator, lab manager, and grad students for advice and recommendations on experiment design and planning.
- Carried out established protocols with precision and care to ensure accuracy of results.
- Examined and re-evaluated laboratory procedures to update them for future reference.
- Organized lab workspaces and storage regularly to facilitate ease of use for other lab members.
- Diligently followed lab safety procedures with hazardous materials to ensure safety of myself and peers.
- Created a poster presentation to communicate the associated findings of the experiment to other scientists of differing fields.

WORK EXPERIENCE

Southern New Hampshire University

Manchester, NH

Lead Advising Ambassador September

August 2023 – April 2024

- Gained and maintained extensive knowledge of educational requirements and college procedures to assess the needs of students.
- Coordinated weekly meetings with team to plan for upcoming events and identify areas of growth both individually and as a team.
